

To whom it might concern

Our School is unique in that we are providing transportation for pupils directly to their home address. This places very high demands on drivers, especially in terms of safety standards, behaviour towards students and communication with parents. Often the demand for these services exceeds our capacity. After years of experience, **Panda Ride** was the first company that was able to fulfil all of the expectations and requirements that our School has for these contractors. They are not just carriers but the child transport specialists. They are ready to get them to school daily, to get them to external clubs periodically, to take care of them all the time and they are ready to deal with the special requests of their clients. That has always made our cooperation perfect.

I can say my job is much easier knowing that I have a partner beside me who is ready to take care of our clients with the same care as we do.

**Filip Bažant**

Transportation Manager
